

PMW-F55/F5 Firmware Version V6.01 Release note

June 30th, 2015

This document explains about firmware update of PMW-F55 V6.01 from PMW-F55/F5 V6.00. The latest firmware version of related products is below.

Product name	Latest firmware	Release date
PMW-F55	V6.01	This announcement
PMW-F5	V6.01	This announcement
AXS-R5	V4.1	Aug 8 th , 2014
AXS-512S24	V1.2	June 5 th , 2013
AXS-A512S24/A1TS24	V1.0	Mar 17 th , 2014
AXS-A256S24	V2.0	Mar 26 th , 2015
AXS Utility Software	V1.3	Feb 28 th , 2014
RAW Viewer	V2.2	Feb, 28 th , 2014

This firmware can be updated from V6.00, V5.11, V5.10, V5.0, V4.12, V4.11, V4.1, V4.0, V3.0, V2.11, V2.1 and V2.0. When you want to update F55 and F5 from V1.22 and earlier, you must update to V2.0 first. Regarding the procedure and functions about V2.0, please refer to “PMW-F55/F5 Firmware Version V2.0 Release note” which was released on Oct 4th, 2013. And F55 and F5 must not be downgraded to previous versions after updating to V2.11. We couldn't guarantee any troubles after downgrading. An “All File” generated by a previous firmware version can be loaded to V6.01 of F55 and F5.

NOTE: The new Firmware V6.01 for PMW-F55/F5 is **only** compatible with AXS-R5 running with Firmware V4.1. If your AXS-R5 has installed an older Version, please update to current Firmware V4.1 the same time.

<<Modification from V6.00 of F55 and F5>>

Bug Fix

When S&Q setting was set “On” in 2K Center Scan mode or 2K Full Scan mode and the power was turned Off and On, Recording did not start. This has been fixed.

Sometimes specific All Files could not be loaded. This has been fixed.

<Notification we would like to share>

1. iOS setting for Wi-Fi Remote

While using Wi-Fi Remote by iOS devices and Safari, please turn off Private browse function.

2. All file Support

All files which are created with Firmware V6.01 are **not** compatible with an earlier firmware version.

<< Version up procedure >>
