This firmware can be updated from V6.01, V6.00, V5.11, V5.10, V5.0, V4.12, V4.11, V4.1, V4.0, V3.0, V2.11, V2.1 and V2.0. When you want to update F55 and F5 from V1.22 and earlier, you must update to V2.0 first. Regarding the procedure and functions about V2.0, please refer to “PMW-F55/F5 Firmware Version V2.0 Release note” which was released on Oct 4<sup>th</sup>, 2013. And F55 and F5 must not be downgraded to previous versions after updating to V2.11. We couldn't guarantee any troubles after downgrading. An “All File” generated by a previous firmware version can be loaded to V6.02 of F55 and F5.

**NOTE:** The new Firmware V6.02 for PMW-F55/F5 is **only** compatible with AXS-R5 running with Firmware V4.1. If your AXS-R5 has installed an older Version, please update to current Firmware V4.1 the same time.
